

Statement of Capabilities

CE3S offers tailored Vendor Managed Inventory Solutions that reduce costs and alleviate administrative frustrations related to material sourcing, procurement, and warehousing, ultimately improving efficiency. Furthermore, our solutions mitigate the risks of inventory obsolescence, expiration and the cost of capital. Our customers often experience a 20-30% savings through our customizable VMI Solution programs.

**With a dedicated team,
CE3S VMI Solutions offer the ongoing support
you need for a successful partnership.**

WHAT TO EXPECT

In our partnership's initial phase, we'll start by presenting our contract and terms, ensuring full transparency and building confidence in our ability to meet your expectations. Following this, our team will assess the space at your facility, focusing on superior inventory management. We will organize and signpost the allocated location, facilitating easy access for any inquiries. Additionally, if applicable, our professional VMI Solutions Specialist will regularly visit your site, efficiently managing and tracking inventory with our advanced technology for timely replenishment. Lastly, we provide ongoing account management, including regular reviews and quarterly check-ins, to confirm we meet your needs and offer any required reporting.

UNLOCK THE FULL POTENTIAL OF A TRUE VMI SOLUTIONS PARTNER WITH OUR CUSTOMIZED, PROPRIETARY APPROACH

Abundant Real-Time, Statistical Models Customized to Your Unique Usage Trends Ensure Products are in your Facility, When and Where they are Needed.

Leveraging A.I. and Our On-Site Employee Intelligence to Ensure Product Availability and make Changes On-the-fly.
